

Transport Ticketing Global 2018: eos.uptrade and HaCon Show Innovative Solutions for Smart Traveling

From January 23-24, eos.uptrade and HaCon will be jointly presenting their cutting-edge mobility solutions at the Transport Ticketing Global in London – the annual get-together for the entire public transport community involved in transport ticketing, passenger information or smart cities. At stand A30, we will be outlining our digitalization strategies and the topic of big data analytics for public transport providers. Learn about our current MaaS projects and integrated mobile trip planning and ticketing solutions, e.g. Check-in/Be-out (CiBo) and Be-in/Be-out (BiBo).

Both eos.uptrade and HaCon will be holding presentations at the conference on January 23: Michael Gross, Managing Director of eos.uptrade, will talk about “Digital Transformation in Public Transport” and its impact on ticketing (11:55), while HaCon’s COO Thomas Wolf will give insights into “The Challenges of Intermodal Ticketing” (14:40).

About eos.uptrade: eos.uptrade provides software solutions for online and mobile sales and ticketing with special focus on the public transport and travel industry. Today, more than 80 customers rely on eos.uptrade’s innovative solutions. Since 2013, eos.uptrade has been part of the extended HaCon family. Their colorful and ambitious team consists of more than 90 employees in Hamburg, Dresden and Lubeck, Germany.

About HaCon: With 300+ highly qualified specialists and more than 30 years of experience, HaCon provides cutting-edge software solutions for public transportation and logistics. Each day our apps and web-based solutions receive over 100 million requests from passengers who rely on HAFAS to empower their mobility choices; this is why our software is considered the highest industry standard for trip planning throughout the world and prompted the Massachusetts Institute of Technology (MIT) to honor HaCon as one of the “50 Smartest Companies” worldwide. Since 2017, HaCon has been a member of the Siemens family. Headquartered in Hannover, Germany, HaCon also holds offices in Berlin, Paris and London.
